Infant Care

Not available in all countries

Maintaining a clean airflow and a dark, quiet environment is important for neonatal patients. Equally important is keeping the baby's temperature stable.
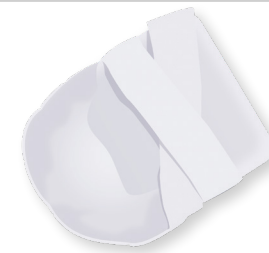

The BiliSoft Pad Covers and Pad Nests are designed for use with the BiliSoft Phototherapy Systems, which are used to treat both premature and full-term infants for hyperbilirubinemia.

Providing big benefits for your tiniest patients, GE Healthcare's neonatal cuffs are designed with the accuracy you trust and the gentle comfort you expect. We offer a full range of neonatal sizes with the choice of extra soft, absorbent material or easy-to-clean vinyl. The playful, color-coded animal designs help you find the right size at a glance and they are economically priced for single-patient-use.

GE Healthcare has a wide variety of monitoring solutions, with a full compliment of products, for all neonates and infants. For your CARESCAPE B450 / B650 / B850 monitors equipped with a PDM module with MASIMO SpO₂ technology.
