

One-Stop Clinic™ for Breast

Redefine your patient's experience by reducing the time from screening to precise diagnosis and treatment plan.

This connected and coordinated patient experience means:
ONE PLACE, ONE TEAM, ONE DAY.

RAPID PROGRESS

Provide patient access to a rapid screening, diagnosis, and treatment plan pathway, reducing patient anxiety and improving overall satisfaction

BETTER CARE

Improve treatment appropriateness and—ultimately—outcomes. Enable effective screening for all patients including those with dense breasts

FEWER FALSE POSITIVES

Minimize repeat tests and scans due to false positives.

BEND THE COST CURVE

Reduce the number of procedures necessary to reach early stage diagnosis

GE HealthCare is a leading global medical technology, pharmaceutical diagnostics and digital solutions innovator. GE HealthCare enables clinicians to make faster, more informed decisions through intelligent devices, data analytics, applications and services, supported by its Edison intelligence platform. With over 100 years of healthcare industry experience and around 48,000 employees globally, the company operates at the center of an ecosystem working toward precision health, digitizing healthcare, helping drive productivity and improve outcomes for patients, providers, health systems and researchers around the world.

Validating the Approach to the One-Stop Clinic for Breast

POTENTIAL CLINICAL AND ECONOMIC OUTCOMES

- 75% of patients had their results on the same day¹
- 96% of FNA patients were able to leave with a diagnosis the same day¹
- High Sensitivity and Specificity²
- Biopsies avoided in 10% of all patients who underwent a CEM¹
- Up to 50% reduced total cost per patient for benign cases and by 33% of costs for malignant cases¹
- Patients very satisfied with the one-day diagnosis¹
- Each hospital facility implementing GE HealthCare's One-Stop Clinics will have adapted clinical and economic outcomes enhanced by its individual circumstances

OUTCOMES BASED ON THE FOLLOWING RESULTS

- GE HealthCare sponsored the data mining of the Gustave Roussy One-Stop Clinic for Breast in 2012
- The analysis confirmed the clinic diagnosed 75% of patients the same day¹
- Oxford Analytica confirmed Gustave Roussy's findings³
- One-Stop Clinic breast study published in European Journal of Cancer 2016¹

**HIGHLY ACCURATE
DIAGNOSES**

**REDUCED UNNECESSARY
BIOPSIES AND SURGERIES**

**HIGH
SENSITIVITY**

BIOPSIES AVOIDED

For all patients who underwent Contrast Enhanced Mammography (CEM)²

**HIGH
SPECIFICITY**
