

Aspire

Leadership Academy

Professional development for emerging leadership talent.

Creating tomorrow's leaders, today.

Aspire is a professional development program designed for emerging healthcare leaders, helping to prepare them to lead with confidence in today's fast-paced environment. Through immersive, real-world scenarios, personalized coaching, and objective feedback, participants have the opportunity to build essential leadership competencies to navigate complexity, inspire teams, and drive meaningful change. It's a strategic investment to help build stronger leadership and a more resilient organization.

Instructor-led

Personalized
assessments

20+ hours of immersive,
in-person training

Live coaching

Designed to prepare top talent for leadership roles

Build leadership foundations through immersive training in relationship-building, navigating change, and driving results.

Communicating with purpose

Empower rising leaders to build strong relationships through intentional, personalized, and results-driven communication.

Listening to lead

Overcome feedback barriers by practicing active listening and using techniques for better receptivity.

Adopting the change mindset

Embrace and act on opportunities for change while fostering an innovative, forward-thinking culture.

Leading with influence

Implement a dynamic influence process to plan strategically, gauge commitment, and drive proactive guidance.

Cultivating stronger, smarter teams

Assess team dynamics, recognize your role in team culture, and apply best practices to overcome challenges.

Making decisions that drive results

Apply structured analysis to make sound decisions, avoid pitfalls, and plan major actions effectively.

Aspire leverages experience and insights to curate learning pathways to set up tomorrow's leaders for success.

Empower

Leadership Academy

Professional development for frontline leaders. Amplify your impact.

Sharpen the skills that build trust, teams, and results.

Empower is a transformative leadership development program for frontline healthcare professionals, designed to enhance accountability, influence and communication skills. We combine immersive learning, personalized coaching, and real-world scenarios to help leaders build trust, inspire teams, and drive meaningful results in today's complex healthcare environment.

Instructor-led

Personalized
assessments

20+ hours of immersive,
in-person training

Live coaching

Grow and retain your next generation of leaders

Strengthen frontline leaders with immersive training that helps build core skills, fosters long-term growth, and equips them to lead high-performing teams.

Intentional communication

Master leadership communication by aligning goals with emotional intelligence and providing empathetic, constructive feedback.

Growth coaching

Enhance your ability to build high-performing teams through personalized leadership and trust-based mentorship.

Strategic influence

Design adaptable influence strategies by planning intentionally, gauging stakeholder commitment, and promoting proactive management.

Goal-driven execution

Align leadership priorities with organizational goals, optimize time and resources, and effectively measure strategic outcomes.

Empowered delegation

Delegate tasks to develop team members and balance individual ownership and responsibility.

Effective decision making

Use best-practice frameworks to analyze problems, avoid pitfalls, and make high-quality decisions.

Empower leverages experience and insights to curate learning pathways to set up tomorrow's leaders for success.
